Subject index

Acetonitrile
Effects of substituents and chalcogen atoms on the reduction half-wave potentials of (substituted η-cyclopentadienyl)(1,2-substituted 1,2-ethylenedichalcogenolato)cobalt(III) complexes in acetonitrile solutions (Ushijima et al.) 199
Aromatic carbonyl compounds
Glassy carbon surface effects of the electroreduction for aromatic carbonyl compounds. Part 1. Benzaldehyde (Chandrasekaran et al.) 185

Benzaldehyde
Glassy carbon surface effects of the electroreduction of aromatic carbonyl compounds. Part 1. Benzaldehyde (Chandrasekaran et al.) 185
Biphenyl
Formation of polyparaphenylene (PPP) films by electrooxidation of biphenyl in CH_2Cl_2. A study of the nucleation process at a platinum electrode (Soubiran et al.) 125
Borate ion
Nuclear grade resins: kinetics of isotopic and ionic exchanges for borate and chloride (Périé et al.) 105

Cadmium selenide
Photoelectrochemical studies on pulse plated CdSe films (Murali et al.) 261
Chalcogens
Effects of substituents and chalcogen atoms on the reduction half-wave potentials of (substituted η-cyclopentadienyl)(1,2-substituted 1,2-ethylenedichalcogenolato)cobalt(III) complexes in acetonitrile solutions (Ushijima et al.) 199
Chloride ion
The nature of specific adsorption. Adsorption of chloride and iodide ions at mercury in the presence of polyethylene oxide (Cohen et al.) 289
Nuclear grade resins: kinetics of isotopic and ionic exchanges for borate and chloride (Périé et al.) 105
Cobalt
Effects of substituents and chalcogen atoms on the reduction half-wave potentials of (substituted η-cyclopentadienyl) (1,2-substituted 1,2-ethylenedichalcogenolato)cobalt(III) complexes in acetonitrile solutions (Ushijima et al.) 199
Corrosion
A potential controlled transient technique for corrosion studies (Lakshminarayanan, Rajagopalan) 95
Cyclopentadienyl
Effects of substituents and chalcogen atoms on the reduction half-wave potentials of (substituted η-cyclopentadienyl)(1,2-substituted 1,2-ethylenedichalcogenolato)cobalt(III) complexes in acetonitrile solutions (Ushijima et al.) 199

Deuterium
Search for neutrons from controlled deuterium concentrations in palladium (Vielstich) 211
Diffusion–migration currents
The theory of limiting diffusion–migration currents in partially dissociated electrolytes (Kharkats, Sokirko) 17
Dipole potentials
An extended Hückel/point dipole model for the calculation of dipole potentials for *sp* metals (Rojas, Leiva) 55
Dissociation recombination reactions
Theory of the effect of migration current exaltation taking into account dissociation–recombination reactions (Kharkats, Sokirko) 27

Electrochromicity
Electrochromic properties of vacuum-evaporated organic thin films. Part 4. The case of

2,4,7-trinitro-9-fluorenylidene malononitrile (Yasuda, Seto) 161
Electron transfer
Voltammetric interpretation of ion transfer coupled with electron transfer at a liquid/liquid interface (Maeda et al.) 171
Ethylene
Effects of substituents and chalcogen atoms on the reduction half-wave potentials of (substituted η-cyclopentadienyl)(1,2-substituted 1,2-ethylenedichalcogenolato)cobalt(III) complexes in acetonitrile solutions (Ushijima et al.) 199

Fluorenylidene
Electrochromic properties of vacuum-evaporated organic thin films. Part 4. The case of 2,4,7-trinitro-9-fluorenylidene malononitrile (Yasuda, Seto) 161

Gallium arsenide
Electroreduction of nitrous oxide to nitrogen using a gas-diffusion electrode loaded with Pt catalyst (Furuya, Yoshiba) 277
Geometry of electrode
Representation of reversible current for arbitrary electrode geometries and arbitrary potential modulation (Cope, Tallman) 1
Glassy carbon
Glassy carbon surface effects of the electroreduction of aromatic carbonyl compounds. Part 1. Benzaldehyde (Chandrasekaran et al.) 185
Gold
Activation of a gold electrode by electrochemical oxidation-reduction pretreatment in hydrochloric acid (Izumi et al.) 151
An optical study of pyridine adsorption on gold using synchrotron radiation (Henglein et al.) 245
Gramicidin
Electrochemical studies of thallium(I) transport across gramicidin modified electrode-adsorbed phospholipid monolayers (Nelson) 221

Hückel model
An extended Hückel/point dipole model for the calculation of dipole potentials for *sp* metals (Rojas, Leiva) 55
Hydrochloric acid pretreatment
Activation of a gold electrode by electrochemical oxidation-reduction pretreatment in hydrochloric acid (Izumi et al.) 151

Indium
Electrochemical oscillators: an experimental study of the indium/thiocyanate oscillator (Koper, Sluyters) 65
Indium/thiocyanate ion oscillator
Electrochemical oscillators: an experimental study of the indium/thiocyanate oscillator (Koper, Sluyters) 65
Iodate ion
High quantum yield photoreduction of iodate in basic solution at p-GaAs (Minks et al.) 277
Iodide ion
The nature of specific adsorption. Adsorption of chloride and iodide ions at mercury in the presence of polyethylene oxide (Cohen et al.) 289
Iodine
Adsorbate-catalyzed corrosion. Anodic dissolution of palladium catalyzed by chemisorbed iodine in halide-free solutions (McBride, Soriaga) 255
Ion exchange
Electrodes modified by perfluoro ion exchange polymeric films prepared from aqueous solutions of Nafion and Tosflex (Weber et al.) 237
Nuclear grade resins: kinetics of isotopic and ionic exchanges for borate and chloride (Périé et al.) 105
Ion transfer
Voltammetric interpretation of ion transfer coupled with electron transfer at a liquid/liquid interface (Maeda et al.) 171
Isotope exchange
Nuclear grade resins: kinetics of isotopic and ionic exchanges for borate and chloride (Périé et al.) 105

Malononitrile
Electrochromic properties of vacuum-evaporated organic thin films. Part 4. The case of 2,4,7-trinitro-9-fluorenylidene malonitrile (Yasuda, Seto) 161
Manganese
Electrochemistry of manganese porphyrin intercalated into montmorillonite (Gaillon et al.) 283
Mercury
The nature of specific adsorption. Adsorption of chloride and iodide ions at mercury in the presence of polyethylene oxide (Cohen et al.) 289
sp Metals
An extended Hückel/point dipole model for

the calculation of dipole potentials for *sp* metals (Rojas, Leiva) 55

Microemulsions
Influence of water on stability of perylene anion radicals in bicontinuous microemulsions (Iwunze, Rusling) 267

Migration current exaltation
Theory of the effect of migration current exaltation taking into account dissociation–recombination reactions (Kharkats, Sokirko) 27

MIRFTIRS
Electrochemical oxidation of 2-naphthol. In-situ MIRFTIRS study of the mechanism and film structure (Pham et al.) 297

Montmorillonite
Electrochemistry of manganese porphyrin intercalated into montmorillonite (Gaillon et al.) 283

Nafion
Electrodes modified by perfluoro ion exchange polymeric films prepared from aqueous solutions of Nafion and Tosflex (Weber et al.) 237

Naphthol
Electrochemical oxidation of 2-naphthol. In-situ MIRFTIRS study of the mechanism and film structure (Pham et al.) 297

Neutrons
Search for neutrons from controlled deuterium concentrations in palladium (Vielstich) 211

Nitrogen
Electroreduction of nitrous oxide to nitrogen using a gas-diffusion electrode loaded with Pt catalyst (Furuya, Yoshiba) 271

Nitrous oxide
Electroreduction of nitrous oxide to nitrogen using a gas-diffusion electrode loaded with Pt catalyst (Furuya, Yoshiba) 271

Nucleation
Formation of polyparaphenylene (PPP) films by electrooxidation of biphenyl in CH_2Cl_2. A study of the nucleation process at a platinum electrode (Soubiran et al.) 125

Oscillating reactions
Electrochemical oscillators: an experimental study of the indium/thiocyanate oscillator (Koper, Sluyters) 65
Electrochemical oscillators: their description through a mathematical model (Koper, Sluyters) 73

Palladium
Adsorbate-catalyzed corrosion. Anodic dissolution of palladium catalyzed by chemisorbed iodine in halide-free acid solutions (McBride, Soriaga) 255
Search for neutrons from controlled deuterium concentrations in palladium (Vielstich) 211

Partially dissociated electrolytes
The theory of limiting diffusion–migration currents in partially dissociated electrolytes (Kharkats, Sokirko) 17

Perfluorate ion
Electrode modified by perfluoro ion exchange polymeric films prepared from aqueous solutions of Nafion and Tosflex (Weber et al.) 237

Perylene anion radicals
Influence of water on stability of perylene anion radicals in bicontinuous microemulsions (Iwunze, Rusling) 267

Phospholipid monolayers
Electrochemical studies of thallium(I) transport across gramicidin modified electrode-adsorbed phospholipid monolayers (Nelson) 221

Photoelectrochemistry
Photoelectrochemical studies on pulse plated CdSe films (Murali et al.) 261

Platinum
Electroreduction of nitrous oxide to nitrogen using a gas-diffusion electrode loaded with Pt catalyst (Furuya, Yoshiba) 271
Formation of polyparaphenylene (PPP) films by electrooxidation of biphenyl in CH_2Cl_2. A study of the nucleation process at a platinum electrode (Soubiran et al.) 125

Point dipole model
An extended Hückel/point dipole model for the calculation of dipole potentials for *sp* metals (Rojas, Leiva) 55

Polyethylene oxide
The nature of specific adsorption. Adsorption of chloride and iodide ions at mercury in the presence of polyethylene oxide (Cohen et al.) 289

Polymeric films
Electrodes modified by Perfluoro ion exchange polymeric films prepared from aqueous solutions of Nafion and Tosflex (Weber et al.) 237

Polyparaphenylene films
Formation of polyparaphenylene (PPP) films by electrooxidation of biphenyl in CH_2Cl_2.

A study of the nucleation process at a platinum electrode (Soubiran et al.) 125

Polythiophene films
Degradation and its prevention, and the deactivation and reactivation of electroactive polythiophene films during oxidation/reduction cycles (Harada et al.) 139

Porphyrin
Electrochemistry of manganese porphyrin intercalated into montmorillonite (Gaillon et al.) 283

Potential modulation
Representation of reversible current for arbitrary electrode geometries and arbitrary potential modulation (Cope, Tallman) 1

Pulse plating
Photoelectrochemical studies on pulse plated CdSe films (Murali et al.) 261

Pyridine
An optical study of pyridine adsorption on gold using synchrotron radiation (Henglein et al.) 245

Resins
Nuclear grade resins: kinetics of isotopic and ionic exchanges for borate and chloride (Périé et al.) 105

Solute molecule adsorption
On the adsorption of solute molecules with a size different from that of the solvent (Torrent, Sanz) 45

Synchrotron radiation
An optical study of pyridine adsorption on gold using synchrotron radiation (Henglein et al.) 245

Thallium
Electrochemical studies of thallium(I) transport across gramicidin modified electrode-adsorbed phospholipid monolayers (Nelson) 221

Thin films
Electrochromic properties of vacuum-evaporated organic thin films. Part 4. The case of 2,4,7-trinitro-9-fluorenylidene malononitrile (Yasuda, Seto) 161

Thiocyanate ion
Electrochemical oscillators: an experimental study of the indium/thiocyanate oscillator (Koper, Sluyters) 65

Tosflex
Electrodes modified by perfluoro ion exchange polymeric films prepared from aqueous solutions of Nafion and Tosflex (Weber et al.) 237

Voltammetry
Voltammetric interpretation of ion transfer coupled with electron transfer at a liquid/liquid interface (Maeda et al.) 171
